## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-20 allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, individually or in combination, fails to disclose, teach or suggest a navigation apparatus having a function of searching for a route to a destination comprising a memory controller for causing the part of the map data stored in the first memory section to be stored in the second memory section when the vehicle reaches a predetermined altitude based upon the positional information, the memory controller being operable to permit access of the part of the map data only from the second memory section and restrict access to the first memory section when the vehicle is above a predetermined level. The closest prior art Ottensen et al (US 6,067,203) discloses slowing the spindle speed depending upon the altitude of the disk drive but does not disclose restricting access to certain areas of the disc drive when above a predetermined altitude.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marie A. Weiskopf whose telephone number is (571) 272-6288. The examiner can normally be reached on Monday-Thursday between 7:00 AM and 5:30 PM.
